

**DRUMMOND GOLD.**

## A smart investment.

At Drummond Gold, we already have a gold Resource. In fact, through successful exploration we increased it by 33% to 272,000 ounces last year. Now we are working to build on that as rapidly as possible, through high quality acquisitions and advanced exploration around the legendary Mt Coolon gold field in North Queensland's Drummond Basin. The quicker we increase our gold Resource, the sooner we can get into production.

To know more about why Drummond Gold is a smart investment, visit [www.drummondgold.com.au](http://www.drummondgold.com.au) or check out DGO on the ASX.
