## OVERVIEW OF THE COMPANY

Drummond Gold Limited is a gold and base metals company focussed on growth through exploration success and acquisition with an early production strategy

The Company operates in the well-known Drummond Basin of Central Queensland around the former gold mining centre of Mt Coolon.

Drummond already has a gold Resource that was increased through successful exploration in 2006/07 by 33% to 272,000 oz (see Table below), four mining leases and exploration tenements extending over 808 km<sup>2</sup> and applications for a further 1892 km<sup>2</sup> of exploration tenements. In 2008/09, the Company plans to further increase the gold Resource through intensive exploration and, if successful, instigate a feasibility study into mining at Mt Coolon and the building of a central treatment plant to process ore from proposed mines in the immediate region.

The Company is well funded having completed an oversubscribed IPO in December 2007, and is led by experienced mining industry directors and executives – Chairman John Dunlop, MD Andrew Vigar, Executive Director Brice Mutton and Non-Executive Director Ross Hutton.
